Founding: Oktober 4th 1993

Headcount: app. 50

### *Company Description:*

HSM® is a globally active family business based in Georgensgmünd (Bavaria), known in the steel industry for its unconventional and fast solutions as a system provider and material supplier. In the aerospace, energy & environmental technology, vehicle construction & e-mobility and medical & pharmaceutical technology sectors, HSM® is a certified partner with many years of expertise. In addition to trading in high-performance materials, HSM® supports its customers in innovative projects and offers services and solutions for supply chain management.

### **HSM® Core competencies**

- Procurement of high-performance steel and metal materials
- Manufacturing & Machining: From simple machining shapes to complex finished parts
- Quality management: Materials testing & special approvals
- Specific logistics & warehousing solutions worldwide
- Tailor-made service: framework agreements, EDP interfaces and mail encryption

### **The company, the team, the individual personality**

Real steel specialists work at HSM® - pioneers with great expertise. Steel is not only their profession - but also their passion. Hence the slogan "A heart for steel." True to the company's vision, the steel specialists demonstrate their know-how every day: "Our customers have no problems whatsoever with the procurement of steel, metal and other high-performance materials." The employees at HSM® have one basic idea above all: Never give up and start where others stop!

The healthy corporate and employee culture is strengthened at HSM® through team events, regular BGM excursions and feedback discussions. This is one of the reasons why HSM® was recognized as an employer of the future in 2023. Here, the German Innovation Institute for Sustainability and Digitalization assessed and awarded prizes for various criteria in the areas of environment, sustainability, corporate culture and digitalization in the company.

HSM® focuses on reducing its ecological footprint and pursues the goal of being CO<sub>2</sub>-neutral by 2025. For example, the roof of the company building is entirely equipped with solar modules, which, among other things, produce electricity for the company's own electric vehicles. The energy-efficient air-source heat pump not only provides heat in winter, but also cooling in summer. Thanks to the completely electronic order management including archiving, HSM® has been working paperless for more than 10 years.

As an employer, HSM® supports the region and various sports clubs as a sponsor. Even outside of work, the team spirit remains in the foreground. For example, some colleagues enjoy going to sports or leisure activities together.

HSM® is your material supplier & system provider - with a  for steel!
